

Download Operating System V ST168.0 30 03.003.000 STOLL

[http://ftp.stoll.com/customer_downloads/cms_bootfiles/st168/V_ST168.0 30 03.003.000 STOLL](http://ftp.stoll.com/customer_downloads/cms_bootfiles/st168/V_ST168.0_30_03.003.000_STOLL)

Note : **HD- ANALYST_30.03.003.004** must be **installed first**.

1. You want to install the Operating System via USB interface or network ?

Please download these files :

bo_pm2.zip

bo_exe.zip

bo_lib.zip

bo_la_de.zip

and the needed language file(s).

2. You want to install the Operating System via floppy disks ?

Note :

The folder disk1 contains one file, called "boot_pm2.zpp", disk2 contains "boot_pm2.002".

Please use the following instructions.

- open the folder "**disk1**"
- use right mouse key for selecting " boot_pm2.zpp "
- select "save as.." at the appearing context menu
- at the 'Save as...' dialog select the path where to save the files
- select "**all files**" at "File type" (ref. to picture below)
- press the "Save" button
- download the contents of **disk2** until **disk5** and the needed language file(s).
